

Leonardo Fibonacci

Greatest Mathematician of the Middle Ages

Birth Date:	1170
Hometown:	Pisa, Italy
Favorite Date:	November 23 rd Fibonacci Day!
Known as:	An Italian Mathematician.

Fibonacci is well known for many achievements including his most famous the Fibonacci Sequence. The sequence of numbers (0,1,2,3,5,8,13,21...) have applications in modern math, computer science, as a part of number theory and in counting mathematical objects. The Sequence is also found in nature and the spiral pattern of the Sunflower is an example.

Greatest Achievements:
Fibonacci helped spread Hindu-Arabic Numerals (like our present day numbers) through Europe in place of Roman Numerals...saving all of us a lot of trouble!
